

### HUGOTON ROYALTY TRUST DECLARES NO OCTOBER CASH DISTRIBUTION

**Dallas, Texas, October 19, 2018** – Simmons Bank, as Trustee of the Hugoton Royalty Trust (OTCQX:HGT XU) (the “Trust”), today declared there would not be a cash distribution to the holders of its units of beneficial interest for October 2018 due to the excess cost positions on all three of the Trust’s conveyances of net profits interests. The following table shows underlying gas sales and average prices attributable to the net overriding royalty for both the current month and prior month. Underlying gas sales volumes attributable to the current month were primarily produced in August.

	Underlying Gas Sales		Average Gas Price per Mcf
	Volumes (Mcf) <sup>(a)</sup>		
	Total	Daily	
Current Month	1,082,000	35,000	\$2.68
Prior Month	1,123,000	36,000	\$2.88

(a) Sales volumes are recorded in the month the Trust receives the related net profits income. Because of this, sales volumes may fluctuate from month to month based on the timing of cash receipts.

XTO Energy has advised the trustee that it has deducted budgeted development costs of \$2,188,000, production expense of \$1,272,000 and overhead of \$1,016,000 in determining the royalty calculation for the Trust for the current month.

#### Litigation and Arbitration Proceedings – Chieftain

As previously disclosed, XTO Energy advised the Trustee that it has reached a tentative settlement with the plaintiffs in the *Chieftain* class action royalty case. XTO Energy advised the Trustee that on March 27, 2018, the judge signed orders approving the settlement, including the plaintiffs’ initial plan to allocate the net settlement fund among the wells covered by the *Chieftain* class. The portion of the settlement allocable to the Trust could not be finally determined until after the judge approved the plaintiffs’ final plan of allocation. On July 27, 2018, plaintiffs submitted their final plan of allocation which was approved by the court on the same date. Based on the final plan

## Hugoton Royalty Trust

of allocation XTO Energy has advised the Trustee that it believes approximately \$24.3 million in additional production costs should be allocated to the Trust. On May 2, 2018, the Trustee submitted a demand for arbitration styled *Simmons Bank (successor to Southwest Bank and Bank of America, N.A.) vs. XTO Energy Inc.* (the "Arbitration") through the American Arbitration Association seeking a declaratory judgment that the *Chieftain* settlement is not a production cost and that XTO Energy is prohibited from charging the settlement as a production cost under the conveyance or otherwise reducing the Trust's payments now or in the future as a result of the *Chieftain* litigation. In the Arbitration, the Trustee also made claims for disputed amounts on the computation of the Trust's net proceeds for 2014 through 2016 in excess of \$5 million. XTO Energy filed its answer denying the Trustee's claims. The Arbitration Panel has been selected. Claims related to the *Chieftain* settlement are currently scheduled for final hearing in March 2019. The remaining claims related to the computation of the Trust's net proceeds were bifurcated and will be heard at a later date, which is still to be determined.

### Excess Costs

XTO Energy has advised the Trustee that decreased costs in the current month resulted in the partial recovery of excess costs of \$9,000 on properties underlying the Kansas net profits interests. However, after the partial recovery there were no remaining proceeds from properties underlying the Kansas net profits interests to be included for the current month. Underlying cumulative excess costs remaining on the Kansas net profits interests totaled \$1,097,000, including accrued interest of \$152,000.

XTO Energy has advised the Trustee that increased budgeted development costs in the current month, primarily due to the projected drilling of four horizontal wells in Major County, Oklahoma during the second half of 2018, caused costs to exceed revenues by \$1,420,000 on properties underlying the Oklahoma net profits interests. Underlying cumulative excess costs remaining on the Oklahoma net profits interests totaled \$11,232,000, including accrued interest of \$0. XTO has advised the Trustee that it has determined not to accrue interest on the Oklahoma excess costs balance at this time.

XTO Energy has advised the Trustee that lower costs in relation to revenues resulted in the partial recovery of excess costs of \$38,000 on properties underlying the Wyoming net profits interests. However, after the partial recovery there were no remaining proceeds from properties underlying the Wyoming net profits interests to be included for the current month. Underlying cumulative excess costs remaining on the Wyoming net profits interests totaled \$978,000, including accrued interest of \$15,000.
