## To Unitholders:

For the quarter ended June 30, 2021, net profits income was \$0 as compared to \$0 for second quarter 2020 primarily due to higher oil and gas prices (\$6.0 million) and decreased production expenses (\$0.7 million), offset by decreased oil and gas production (\$3.1 million), net excess costs activity (\$1.9 million), and increased development costs (\$1.7 million).

After adding interest income of \$0, deducting administration expense of \$166,738, and utilizing cash funded by Simmons Bank of \$166,738 for the payment of Trust expenses, distributable income for the quarter ended June 30, 2021 was \$0, or \$0.000000 per unit of beneficial interest. Administration expense for the quarter decreased \$31,272 as compared to the prior year quarter, primarily related to the timing of receipt and payment of Trust expenses and terms of professional services. Changes in interest income are attributable to fluctuations in net profits income, cash reserve and interest rates. For second quarter 2020, distributable income was \$0 or \$0.000000 per unit.

**No distributions were made to unitholders for the quarter ended June 30, 2021.**

### Liquidity and Going Concern

The accompanying condensed financial statements have been prepared assuming that the Trust will continue as a going concern. Financial statements prepared on a going concern basis assume the realization of assets and the settlement of liabilities in the normal course of business. Increases in excess costs for the Kansas, Oklahoma and Wyoming conveyances have resulted in insufficient net proceeds to the Trust and a reduction in the Trust's expense reserve to zero. These conditions raise substantial doubt about the Trust's ability to continue as a going concern as the Trust may not have, based on the current estimated administrative expenses, sufficient cash to meet its obligations during the one year period after the date the financial statements are issued. Factors attributable to the cash shortage are primarily the previously disclosed increase in development costs to drill four horizontal wells in Major County, Oklahoma, lower oil and gas prices during 2019 and 2020, and excess cost positions on the Kansas, Oklahoma and Wyoming conveyances which have resulted in no net proceeds to the Trust for all of 2020 and the first and second quarters of 2021. In addition, on May 18, 2021, the Panel issued its second interim final award over the amount of XTO Energy's settlement in the *Chieftain* class action lawsuit that can be charged to the Trust as a production cost which XTO Energy has estimated to be approximately \$14.6 million. This adjustment would further increase excess costs on the Oklahoma conveyance. The Trustee has prepared a preliminary budget estimating the administrative expenses for the year ending December 31, 2021 and the eight months ending August 31, 2022 which assumes no cash inflow from either net profits income or from other sources. The Trustee has sought financing to pay the Trust obligations during the one year period after the date the financial statements are issued, especially now that the expense reserve was depleted in

October 2020; however, to date such financing has not become available.

The Trustee is reviewing the Trust's alternatives to continue as a going concern, which may include a sale of the Trust's assets and/or termination of the Trust. The Trustee engaged a third party to market the Trust's assets, and following an extensive marketing period for the assets, on July 2, 2021, the Trustee entered into a purchase and sale agreement for the Trust's assets with the highest bidder, XTO Energy for a cash purchase price of \$6,600,000 (subject to adjustment as set forth in the purchase and sale agreement). Although the Trustee and XTO Energy have entered into the purchase and sale agreement, there is no assurance that a sale can be completed under the terms of the indenture, or if a sale is completed under the terms of the indenture, that there will be any funds available for distribution to unitholders. Any material sale of assets and/or termination of the Trust requires unitholder approval by at least 80% of all outstanding units. While such review is ongoing, Simmons Bank, as Trustee, is currently paying the expenses for the Trust, subject to its rights to be indemnified and reimbursed pursuant to the terms of the Trust indenture. However, there is nothing in the Trust indenture that requires Simmons Bank to pay the expenses for the Trust. Any funds that Simmons Bank, as Trustee, utilizes to pay expenses of the Trust must be repaid in full (including from proceeds received from a sale of the Trust's assets, if any) before distributions to unitholders could be made. There can be no assurances that a sale of the Trust's assets, if any, will produce net proceeds sufficient to allow distributions to the unitholders and if such proceeds are available, there is no assurance when any distribution will be made. The Trust's condensed financial statements do not include any adjustments that might result from the outcome of these uncertainties. Please see Note 1 to the Condensed Financial Statements included in the Trust's Form 10-Q filing for quarter ending June 30, 2021, for additional information regarding the liquidity and going concern of the Trust.

Please see Notes 4 and 7 to the Condensed Financial Statements included in the Trust's Form 10-Q filing for quarter ending June 30, 2021, for information regarding the arbitration proceeding relating to the *Chieftain* class action royalty case, and for information regarding the pending sale of the Trust's assets, respectively.

This letter, and all communications to unitholders, includes information provided to the Trustee by XTO Energy Inc.
