3
Quarter Report
2023

To Unitholders:

For the quarter ended September 30, 2023, net profits income was \$0 as compared to \$9,440,853 for third quarter 2022 primarily due to lower gas and oil prices (\$11.0 million), increased development costs (\$5.1 million), decreased gas and oil production (\$0.6 million), and increased overhead (\$0.2 million), partially offset by net excess costs activity (\$5.9 million), decreased taxes, transportation and other costs (\$1.2 million), and decreased production expenses (\$0.4 million).

After adding interest income of \$12,810, and deducting administration expense of \$374,347, and utilizing \$361,537 of the expense reserve to pay Trust expenses, distributable income for the quarter ended September 30, 2023 was \$0, or \$0.000000 per unit of beneficial interest. Administration expense for the quarter increased \$242,038 as compared to the prior year quarter, primarily related to the timing of receipt and payment of Trust expenses and terms of professional services. Changes in interest income are attributable to fluctuations in net profits income, cash reserve and interest rates. For third quarter 2022, distributable income was \$8,964,359 or \$0.224109 per unit.

No distributions were made to unitholders for the quarter ended September 30, 2023.

Liquidity and Going Concern

The accompanying condensed financial statements have been prepared assuming that the Trust will continue as a going concern. Financial statements prepared on a going concern basis assume the realization of assets and the settlement of liabilities in the normal course of business. Accumulated excess costs for the Kansas. Oklahoma and Wyoming conveyances have resulted in insufficient net proceeds to the Trust and a reduction in the Trust's expense reserve. These conditions raise substantial doubt about the Trust's ability to continue as a going concern as the Trust does not have sufficient cash to meet its obligations during the one-year period after the date the financial statements are issued. Factors attributable to the cash shortage are primarily the previously disclosed development costs to drill three nonoperated wells in Major County, Oklahoma, lower oil and natural gas prices during 2023, and excess cost positions on the Kansas, Oklahoma and Wyoming conveyances including accumulated interest, which have resulted in no unitholder distributions since July 2023. In addition, on May 18, 2021, the arbitration panel issued its second interim final award over the amount of XTO Energy's

settlement in the Chieftain class action lawsuit that can be charged to the Trust as a production cost which XTO Energy has estimated to be approximately \$14.6 million net to the Trust. This adjustment would further increase excess costs on the Oklahoma conveyance. The Trustee has prepared a preliminary budget estimating the administrative expenses for the twelve months ending September 30, 2024, which assumes no cash inflow from either net profits income or from other sources. The Trustee intends to review options for the Trust which may include alternatives to continuing as a going concern or may include seeking financing to pay the Trust obligations during the one-year period after the date the financial statements are issued; however, there can be no assurance that financing will be available on acceptable terms or at all. If financing became available to the Trust, it would have to be repaid, together with interest, and the Trust's expense reserve would have to be replenished prior to any distributions to unitholders.

On July 9, 2020, the Trustee notified XTO Energy of the Trustee's claim to indemnification to the Trust Estate for all liability, expense, claims, damages or loss incurred by the Trustee in connection with the administration of the Trust. The Trustee stated it anticipates seeking reimbursement from XTO Energy upon depletion of the Trust's cash reserve. XTO Energy responded that any indemnity claim to XTO Energy is premature before the Trust Estate is exhausted. The Trust's financial statements do not include any adjustments that might result from the outcome of these uncertainties.

Please see Note 3 to the Condensed Financial Statements included in the Trust's Form 10-Q filing for quarter ending September 30, 2023, for information regarding the arbitration proceeding relating to the *Chieftain* class action royalty case.

This letter, and all communications to unitholders, includes information provided to the Trustee by XTO Energy Inc.
